**QUIZ AND EXAM SCHEDULE**

Students must attend only the discussion section in which they are enrolled.

However students are encouraged to attend **all office hours (27 hours every week!) and all review sessions (over 30 hours!)**.

Missed quizzes (with a doctor's note given to your TA) must be discussed with your TA. There are no make-up quizzes or exams.

There are approximately 1200 students and 12 TA's. The course instructor does not get involved in any communication between a student and his or her TA.

All material is directly related to class notes (see course reader), readings and homework problems. The best preparation for all quizzes and exams is to be able to independently work through the assigned homework problems. The course reader also contains many past midterm and final exams with detailed answers.

*To 'encourage' students to do the assigned homework problems both the midterm and final will include one homework question.*

The Workbook also contains Preparatory Self-Quizzes which will be graded by their TA provided students complete them before each discussion section quiz. If a student's total workbook score is higher than any of the three discussion section quiz scores then the workbook score will replace your lowest discussion section quiz score. Your TA will do this automatically. See workbook for more details.
